

London TDM

# Project Management Training Courses

**Course Venue:** United Kingdom - London

**Course Date:** From 26 April 2026 To 30 April 2026

**Course Place:** London Paddington

**Course Fees:** 6,000 USD

## Introduction

Agile Project Management Essentials is a comprehensive five-day course designed to equip professionals with the fundamental principles and tools required to effectively manage projects using Agile methodologies. This course aims to enhance participants' understanding of Agile frameworks, promote collaboration, and optimize project outcomes through iterative processes. Participants will gain practical skills and insights to lead Agile projects successfully in their respective organizations.

## Objectives

- Understand the core principles of Agile methodologies and how they differ from traditional project management.
- Learn to implement Agile practices such as Scrum, Kanban, and Lean effectively.
- Develop skills to manage and lead Agile teams, fostering collaboration and communication.
- Gain insights on handling project challenges and mitigating risks in an Agile environment.
- Build competence in using Agile tools and techniques to enhance project delivery and stakeholder satisfaction.

## Course Outlines

### Day 1: Introduction to Agile Methodology

- Overview of Agile principles and values
- Comparing Agile with traditional project management
- Introduction to Scrum framework
