

London TDM

Health, Safety, and Environment (HSE) Training

Course Venue: United Kingdom - London

Course Date: From 26 July 2026 To 30 July 2026

Course Place: London Paddington

Course Fees: 7,500 USD

Introduction

In today's workplace, ensuring safety goes beyond compliance with regulations; it involves creating a culture where safety is a core value. This course, "Safety Culture and Behavior-Based Safety," equips professionals with the knowledge and tools to promote and sustain a high level of safety consciousness within their organizations. By understanding the principles of safety culture and behavior-based safety, participants will be better equipped to lead initiatives that minimize accidents and enhance overall safety performance.

- Understand the components of a strong safety culture
- Learn techniques for promoting behavior-based safety practices
- Identify and assess safety behaviors in the workplace
- Develop strategies for engaging employees in safety initiatives
- Implement continuous improvement processes for safety management

Course Outlines

Day 1: Introduction to Safety Culture

- Definition and significance of safety culture
- Historical development of safety management
- Key elements of an effective safety culture
- The role of leadership in shaping safety culture
- Case studies on successful safety culture implementation

Day 2: Exploring Behavior-Based Safety (BBS)

- Principles of behavior-based safety
- Psychology of safe and unsafe behaviors
- Behavior observation and feedback processes
- Identifying critical at-risk behaviors
- Integrating BBS with existing safety systems
