

London TDM

Health, Safety, and Environment (HSE) Training

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 12 July 2026 To 16 July 2026

Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

The Environmental Management Systems (EMS) course is designed to provide participants with a comprehensive understanding of ISO 14001 standards. This 5-day professional course will guide individuals through the process of implementing and maintaining an effective EMS within their organizations, ensuring compliance, and improving environmental performance.

- Understand the fundamental principles and requirements of ISO 14001.
- Develop skills to implement and maintain an Environmental Management System.
- Gain insights into identifying and managing environmental aspects and impacts.
- Learn how to conduct internal audits and prepare for certification audits.
- Enhance strategic decision-making concerning environmental management.

Course Outlines
