Introduction

The "Problem Solving and Decision Making for Admins" course is designed to equip administrative professionals with the essential skills needed to identify issues, assess solutions, and make informed decisions. Throughout this five-day program, participants will engage in interactive sessions, real-world scenarios, and hands-on activities to enhance their problem-solving capabilities and decision-making processes.

Objectives

- Understand the fundamentals of effective problem solving and decision making.
- Develop analytical skills to assess problems systematically.
- Learn decision-making models and frameworks to use in various situations.
- Enhance critical thinking and creativity in problem-solving.
- Apply strategic decision-making skills to real-world administrative scenarios.
