

London TDM

Security Management and Risk Protection Training Courses

Course Venue: United Kingdom - London

Course Date: From 26 April 2026 To 30 April 2026

Course Place: London Paddington

Course Fees: 7,500 USD

Introduction

The "Health and Safety Integration in Security Plans" course is designed to equip professionals with the necessary skills and knowledge to seamlessly integrate health and safety protocols within security operations. Over the five-day period, participants will learn best practices, legal requirements, and strategic planning techniques to enhance workplace safety and security.

Objectives

- Understand the importance of integrating health and safety in security strategies
- Identify key health and safety risks in security operations
- Learn to develop comprehensive security plans that include health and safety elements
- Enhance the ability to conduct risk assessments and implement mitigation measures
- Foster a culture of safety and security within organizations

Course Outlines
