

London TDM

Security Management and Risk Protection Training Courses

Course Venue: Malaysia - Kuala Lumpur

Course Date: From 24 May 2026 To 28 May 2026

Course Place: Royale Chulan Hotel

Course Fees: 6,000 USD

Introduction

In today's interconnected world, individuals may find themselves traveling or working in areas that pose various levels of risk. The Hostile Environment Awareness Training (HEAT) course is designed to equip participants with practical skills and knowledge to identify, assess, and respond to threats in unpredictable and potentially dangerous environments. This immersive five-day course focuses on risk mitigation, personal safety strategies, and emergency response protocols.

- Understand the principles of risk assessment and management in hostile environments.
- Develop practical skills for personal security and situational awareness.
- Learn effective communication and negotiation techniques in high-stress situations.
- Prepare for medical emergencies with basic first aid and trauma care skills.
- Build resilience and adaptability in challenging scenarios through scenario-based training.

Course Outlines

Day 1: Introduction to Hostile Environments
